SeamlessDocs, New York, NY — Software Engineering Intern

JUNE 2018 - PRESENT

HackNY Fellow.

Facebook, Menlo Park, CA — Software Engineering Intern

Site Integrity Team

May 2017 - August 2017

Worked on eliminating code complexity in Sigma, Facebook's spam-fighting system written in Haskell that keeps 2 billion users safe.

tenten, Taipei, Taiwan — Software Engineering Intern

Internal Tools Team

May 2016 - August 2016

Built internal human resources software for a growing startup. Product was built in React, Redux and Firebase.

LEADERSHIP

Pan-Asian Resource Center — Co-Founder and Co-Head

Lobbied Haverford College for \$5,000 in funding to build a space on campus to provide community for our Pan-Asian student body.

Managed a board of 10 folks who were designers, historians, treasurers and PR folks.

Created processes to ensure sustainability of the center.

Led community conversations to build a coalition with Haverford's Black Students' League.

Led the center to win 3 awards for service to the student body by the end of the year.

EDUCATION

Haverford College, Bachelor of Sciences in Computer Science with a Linguistics Minor.

August 2014 - May 2018

Graduated Cum Laude with Departmental Honors in Computer Science.

SKILLS

Haskell, Idris, Python, Scala, Java, JavaScript

Sketch, Affinity Designer

Mandarin Chinese (fluent), Spanish (basic), Modern Standard Arabic (basic), ASL (basic)

AWARDS

Martin Foss Award Given to a graduating member of the Haverford College community whose life speaks directly to the lives of others by the powerful harmony of intellect, compassion and courage.

Eagle Scout Organized a service project to rebuild swimming pool record boards at a high school.
